RIVERFRONT & CENTRAL GREEN

Downtown Baton Rouge has worked to connect numerous civic and cultural institutions near the River Center and City Hall campuses through a unified system of greenspaces known collectively as the Central Green. Since their completion between 2012 and 2013, North Boulevard Town Square, Galvez Plaza, The Crest Stage, and Repentance Park have been host to over 200 annual events including the popular Live After Five Series as well as small informal gatherings on the lush greenspaces.
